The Remote Veterans Apnea Management Portal (REVAMP) Technical Manual was created to enable maintenance and troubleshooting of the application. As per the contract, the Technical Manual was written to the educational level of an Information Technology (IT) staff trained equivalent member. The Technical Manual is comprised of seven documents (aside from this guide) that are included in the Technical Manual Folder. These seven documents cover the topics of user and admin documentation, configuration / setup instructions, the development workspace configuration, and a technical overview.

Technical Documents:

User and Admin Documentation:

1. REVAMP - USER & ADMIN - CMS Maintenance Plan
2. REVAMP - USER & ADMIN - VA Facing Portal
3. REVAMP - USER & ADMIN - Veteran Facing Portal

Configuration/ Set Up Instructions:

4. REVAMP - CONFIGURATION & SETUP INSTRUCTIONS - Server Configuration Document

Development Workspace configuration:

5. REVAMP - DEVELOPMENT WORKSPACE CONFIGURATION - Development Configuration

Technical Overview:

6. REVAMP - TECHNICAL OVERVIEW - Security Guide
7. REVAMP - TECHNICAL OVERVIEW - System Architecture
